Post-Exit Founder | Tech Leader | Best Selling Author

Speaker

Anu Bulusu

Anu helps shift mindsets through original frameworks and powerful storytelling.

She co-founded and led INRY, one of the fastest-growing technology firms in the US, to a successful exit. She then launched L5.ai, which is already a global firm serving over 500 customers in just 3 years. Anu blends entrepreneurial grit with corporate depth (gained as a leader at Microsoft and Deloitte).

Her book *Sticking On: Stay, Rise, Win* became an Amazon International bestseller in 2025, sparking conversations on how women can rise without burning out.

She has been featured on Bloomberg TV's *American Dreams* and is a sought-after speaker who has presented at ServiceNow, ClickUp, events like Knowledge, SKOs, HYSEA and AugustFest, Business Network International (BNI) and several universities.

Her thought leadership has reached more than 100,000 people.

Her superpower is turning messy realities into simple, sticky frameworks. Her talks don't fade, they rewire how people see situations, with 2x2 grids and formulas people can reuse.

Having lived and led across three continents and four generations, Anu brings a rare global perspective on leading complex organizations, while navigating workplace dynamics and family life, with humor and conviction.

Sticking On is a radically honest guide to navigating career growth as a woman – without the gloss, the guilt, or the pressure to play by someone else’s rules.

This isn’t a self-help manual or a corporate checklist. It’s a field guide written from the trenches from real experience, and lots of coffee!

The book tackles the hidden costs of ambition: the mental load no one talks about, the unspoken codes at work, and the quiet exhaustion behind high performance; and offers ideas to turn these costs into investments.

With clarity, strategy, and a touch of wit, Sticking On offers a practical, empowering framework to help women rise through the ranks, stay the course, and define success on their OWN terms. Because the issue isn’t the pipeline, it’s what happens once women are in it.

And when people stick on?

The whole system shifts forward.
